## Declaration of conformity regarding the directive RoHS 2002/95/CE

---

With this declaration, we confirm that we are in conformity with the directive 2002/95/CE dated 2003/01/27, usually called RoHS directive, for electric and electronics appliances from 2006, July the first.

This directive concerning the limitation of dangerous substances, in particular to clause 4 which forbids the use of the following elements :

- Lead
- Mercury
- Cadmium
- Hexavalent chromium
- Polybrominated biphenyls
- Polybrominated diphenylethers

All the answers and certificates from our partners demonstrate that the materials and components used on our production process of our appliances do not contain any of those prohibited substances or only limited to the specific cases that are allowed by the directive.

In consequence, we confirm that all our products are in accordance with the RoHS directive.

Feel free to contact me if you need any further information regarding this letter.

Sincerely yours,

Jean-François ROLAND  
Quality department
